

Riverside County Lead Program presents

Lead Poisoning Prevention Seminar

Monday

October 29, 2018

Time: 10 am– 11:30 am

Community Action

Partnership of Riverside

2038 Iowa Ave., Suite B-101

Riverside, CA 92507

Course objectives:

- ⇒ Describe screening regulations & the scope of childhood lead poisoning in California
- ⇒ Describe the importance of identification and testing of children of all ages and socioeconomic groups who may be at risk for lead exposure
- ⇒ Increase the understanding of screening and counseling at the age of 2 years
- ⇒ Describe FDA/CDC recommendations for follow-up for children and adults with a history of a venous blood lead test processed in a Lead Care® Analyzing device
- ⇒ Increase awareness and sensitivity of risk factors associated with children and families coming from different cultural backgrounds
- ⇒ Describe how lead from dust and other locations impacts children and adults
- ⇒ Describe proposed occupational permissible lead exposure limits and blood levels
